

THE REWILDING SCHOOL

# WILD SUMMER

*At Croton Point*

## HUNTER GATHERERS

Learn to thrive in the natural environment the way our ancestors did through foraging, tracking, fishing, and fire making. Our Hunter Gatherers learn how to build tools and shelters whilst learning about some of the oldest techniques and technologies humanity ever used. Add in imaginative games and kid-led exploration and your child will leave prepared and excited to spend time outdoors. (Grades 1-6)

## RIVER EXPLORERS

Take advantage of the gorgeous Hudson River in this program focused on the wonders of our natural waterways. Fishing, riverbed exploration, and creature identification feature in this awesome opportunity to dive into the natural sciences in a new and exciting way. (Grades 1-6)

# SHIPWRECKED PIRATES

Stranded on strange shores, join a pirate crew as we attempt to find our stolen treasure and build skills along the way to survive in the forest! Bond with your crewmates, craft costumes, and solve the mystery of the stolen treasure. (Grades 1-2)

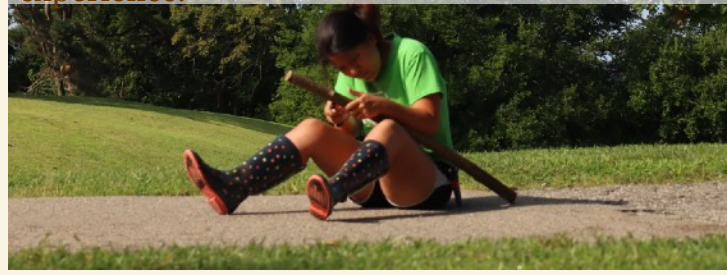

# DESERT ISLAND SURVIVAL

On a desert island, learn important skills like fort building and plant and animal identification as you learn how to survive in any conditions. Oh, and there seems to be some pirates who've just landed on the same shore... (Grades 3-6)

# OUTDOOR WILDERNESS LEADERS (AGES 12-15)

The perfect opportunity for those who have outgrown traditional camp programs and want to learn essential skills for wilderness survival, land stewardship, and essential leadership skills while having a blast in the forests and fields of Westchester. This unique program is an ideal setup in your child's outdoor experience.

# STONE AGE TINKERERS

Return to your roots and expand your horizons with a program focusing on the very core of what we teach—fire making, shelter building, tools and trinkets...all using some of the very first methods that humans across the planet discovered in their quest to better engage with their environments. Now, your kids can rediscover some of the core elements that we all take for granted. (Grades 1-6)
